Paging and Holds

Is it possible to make all copies of one specific item show "not available" in Prospector?

Yes, it is possible to make a copy not available for lending in Prospector. There are a number of ways to do it:

1. Check-out the item when it is brought in for inspection.
2. Change the particular copy to a non-lendable location (often libraries have a non-lending location for bindery, repair, cataloging).
3. Change the particular copy to a non-lendable media type.
