Paging and Holds

How can I find out who requested the item if there is no attached paperwork?

In Search/Holds mode, type in the first four or five digits of the barcode and search. This will give you a browse screen of all the barcodes that start with those digits that are in virtual Prospector records associated with your patrons. Find the exact match from the list and click on it. You can't go directly to the patron record, but the patron name and barcode will display in the top half of the screen.
